

Brake Master Cylinder Brackets

www.MRTrally.com

Left Hand Drive Impreza GC shown

Right Hand Drive

Brake Brackets

Available to suit LHD or RHD early GC & current GD Impreza chassis
Suits Impreza, Forrester, Liberty, Legacy and Outback and other chassis variants

Benefits:

- Improved Brake performance
- Less spongy peddle
- Better control of your brakes

Features:

- Reduces flex of brake master cylinder on the fire wall
- No Drilling
- Fits all OE mounts
- Cadplated/Powder coated componants
- Good value / Performance for your dollar

Part Numbers:

Left Hand Drive: MUSSBR023B

Right Hand Drive:

91-2000: MUSSBR023

2001 -onwards: MUSSBR023D

WHY

Brake master cylinders are attached to the fire wall of cars. Under heavy braking the wall flexes causing spongy peddle and decreased braking efficiency . The bracket helps to eliminate the flexing and so improve stopping power and allows better control of brakes.
